## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 1, drawn to a transcription factor having the amino acid sequence of SEQ ID NO:2, classified in class 530, subclass 370, for example.
  - II. Claims 2-5, drawn to an isolated polynucleotide, a method of altering plant development and a transgenic plant, all of which comprising SEQ ID NO:1 or 3, classified in class 536, subclass 22.6, for example.
  - III. Claims 6-7, drawn to a method of altering plant development and transgenic plant, comprising a nucleic acid sequence encoding a portion of a CCA1 protein of SEQ ID NO:2, classified in class 800, subclass 278.
2. Inventions I- III are unrelated to each other. The transcription factor of Group I does not require the polynucleotide, transgenic plants, or method of altering plant development of Group II or Group III. The method of Group II does not require the CCA1 protein or the method and transgenic plant of Group III.
3. Furthermore, the protein of Invention I could be made by a process other than the expression of the gene of Inventions II or III, such as chemical synthesis or purification from the natural source, and the DNA of Invention II or III, may be used for a process other than the production of a protein, such as a nucleic acid hybridization. Lastly, DNA and protein differ in composition, structure and function.

Art Unit: 1638

4. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stuart F. Baum whose telephone number is 703-305-6997. The examiner can normally be reached on M-F 8:30-5:00.
